

Spirit Nut

The magician shows a square brass nut and a string. He threads the string through the nut and, asks a spectator hold the ends so that the nut cannot escape the string in any way. He moves the objects under the table (or under a handkerchief). A moment later, magically, the nut will be free and everything will be able to be carefully examined!

- Classic effect to always carry with you.
- Simple, elegant and sure to have a great impact on spectators.

Note: the silk is not included.
