

Solokid Frozen Playing Cards

Solokid Frozen presents an ice-cold fairy tale world. The designer has seamlessly combined different shades of blue, turning it into a representation of ice and snow. You are not just holding a deck of playing cards anymore, you are holding actual ICE! With snowflakes shimmering on the edge of the card, your moves will be enhanced by the ice cool world. Watch out! Your hands might be frozen due to the chillness of the deck!

The Solokid Frozen will be printed by MPC, limited to 2500 Decks.

- The cards are poker size.
