

Silks Off Hanger

The performer displays four different colored silks tied on a Clothes Hanger. A member of the audience is asked to select a silk by its color. Miraculously one of the silks unties itself and falls on the floor. Surprisingly it is the selected silk!

- Simple and impactful.
- The crutch and 4 silks of different colors are supplied.
- Depending on the presentation, you can repeat everything for the other 3 silks.

NOTE: the video shows another possible routine!
