

POP Solution V2 by Kelvin Chad

A chosen card is returned to the deck. The magician inflates a balloon and places it on the case.

Then he begins to lay the cards on the table one by one, from the back. At one point the balloon bursts and the card immediately after is the one chosen!

This is just an idea for using this fantastic gimmick which, hidden in the card case, allows you to pop any balloon!

- Customizable 1-8 second timer delay.
- NO NEED TO REMOTE & CHARGE.
- Perfect stunner gimmick.
- Instant reset, easy to DIY.
