

Peak 15 Playing Cards

Last year an Ellusionist customer won the opportunity to create their very own deck of cards. To have their personality, style and passions put to paper. 1 year on, it's ready to share!

The lucky winner, Miguel Hanusch, wanted to create a deck to idolize the pinnacle of all outdoor adventures... Mount Everest.

At over 29,000 feet above sea level, Everest was originally known as PEAK 15, the hardest and most treacherous climb the world has ever known.

Not everyone who attempts Everest lives to tell the tale but those who do - descend as legends. Part of an exclusive club, who's entry is out-of-reach for most of us.

Peak 15 Playing Cards pay homage to this icon.

Printed on our famous E7 Luxury-pressed stock and featuring full pip-to-pip customization, the Peak 15 deck is for the nomads, adventurers and lovers of the outdoors.
