

Magic Milk

Avoid the bother of bringing real milk with you for effects that require milk!

All you will need is some drops of Milk Fake in a little water to change it into milk (well, not really milk).

Ideal to use in any magic effect that requires milk (glasses, bottles, pitchers...).

This “milk” will not leave your apparatus dirty and smelly, is easy to clean and can be used over and over.

Supplied in a 2,7 oz bottle.
