

Oh My Gift by Tora Magic

The magician opens a gift box and shows that inside there is just a gift card. In an instant, without any cover, the card will disappear and a present will magically appear in its place in the box: a mobile phone, glasses, a chocolate bar, a wad of banknotes ... or something else!

Breathtaking magic!

- The box and three cards are supplied for different types of presentation, and a wad of banknotes (but you can use other preferred objects).
