

Odyssey Boreal Revision

4 years ago... one of the most beautiful decks ever made was created thanks to 300 backers that supported the Kickstarter campaign.

Now the Boreal deserves a new look! Featuring improved textures, top quality materials and modernized design.

IMPROVED ELEMENTS

- New box design with high quality matte paper and impressive blue foil.
- Pips, jokers and aces updated to last design. More recognizable by the spectators.
- New paper stock (Vintage Paper Stock).
- New finish (Legendary finish).
- Improved textures in the whole deck.

WHAT WAS ALWAYS LOVED HAS BEEN KEPT!

The back design is one of the most loved parts of this deck and has been kept, but improving the colours and textures slightly.

Also, the court cards (figures) are improved in terms of colour tonalities and texture, but the style remains the same.

- The cards are poker size.
