

## **NOC3000X2 (Pink LIMITED Ed.)**

LIMITED TO 3000 DECKS - INDIVIDUALLY NUMBERED 1-3000.

In the year 3000, artificial intelligence takes over the human race. A rogue rebellion warrior escapes from A.I enslavement and travels to a run down time traveling facility in hopes of saving the species. The NOC Corporation, a self built A.I. establishment controlled everything until our protagonist successfully sent back the NOC3000X1 deck back in time to the year 2019 with the simple message - keep the magic alive.

The plan worked - humans not only received the message of the threat but discovered advanced technologies within the fibers of the playing cards sent back in time - technologies that would ultimately lead to the now thriving world - the (new) year 3020, safe from threats of A.I. The playing cards were reborn into what we now know them as - NOC3000X2

The more we depend on technology, the less magical the world seems until one day all the magic will be gone. The deck is now in your hands. #NOC3000X2

STORY CONCLUDES WITH FINAL CHAPTER IN 2021

Hey everyone! Pandrea here - I hope you enjoy this little story we created for this new release, which is a continuation of our NOC3000X1 story. It's very important to me to create products with a feeling to it - and with branding to match. We shot an AMAZING mini-movie for this which you can find through the link below. We hope you enjoy the NOC3000X2's! (and check out the film for the NOC3000X1's below if you've missed it).
