

New Age by Andrew

Wow, once again Andrew has come up with a genius effect, well actually a method/tool – with which you can produce all kinds of different effects, your own imagination determines how far you want to go with it.

We will of course give you some ideas/routines that you can perform:

Have a spectator roll a die (e.g. FIVE) and then choose a suit (hearts, diamonds, etc.), in this case HEARTS. Then open the card box and take out a blank deck of cards. Go through the cards until there is one printed card in the deck – and that is the five of hearts! The rest of the cards are really blank.

Have a spectator roll a die (e.g. TWO) and then choose a suit (hearts, diamonds, etc), in this case HEARTS. Open the card box, turn it over and a single card will fall out of the box, the TWO OF HEARTS!

You show a box of cards and tell a spectator that you are placing a stack of invisible cards on his hand, one by one you take them from his hand while saying the card name and value and then throw them into the air. This continues until the spectator says STOP (for example at the ten of diamonds). You open your box and invert the contents over the spectator's hand and this is the TEN OF DIAMONDS!

You can make predictions with blank cards, upside-down cards, different color cards, number and alphabet cards.

The ingeniously made box in combination with the cards makes everything very simple but very strong in effect!

Important:

- Multiple routines possible.
- Multiple types of cards to use.
- Complete with the handmade special (prediction) cards and box.
- You will learn everything in the included online instructional video.

“This is a crazy gimmick with crazy possibilities” – Nicholas Lawrence

“In Magic I love to have freedom in choices and a clean ending for an effect. New

Age has both of these conditions in one! Very recommendable!” – Henry Evans

“You will be surprised as how clever and clean this gimmick is. A great version for any card prediction effect”. – Patrick Kun
