

## **NERD by O\_Nul and SangSoon Kim**

[N E R D] was created through the collaboration of O\_Nul and SangSoon Kim.

"We tried to make not just a 'Gimmick', like a piece of art, then we started a project to share with many people, finally we made a parlor magic trick.

[N E R D] is perfect for those of you who aim to perform visual magic on social media such as Instagram and YouTube.

Not only that, this will also serve you well when you will be performing in a parlor environment with real audiences after COVID-19 era.

So we have added visual parts that we have been unsatisfied about the Parlor magic.

And [N E R D] includes the production video and script to make it easier to direct.

We hope you can create a new act with Smooth Production Co. 's [N E R D]. "
