

## Tora Multiplying Dice

The magician displays two square tubes and shows that inside one there is a giant die, and inside the other a large ball. In a fun filled routine, the die and ball magically change places various times. Then for an amazing climax the dice become 2, then 3, then 4... untill at the end there are 6 large dice!... And the large ball will have completly vanished. A fun and magical "feast" for the eyes!

- Tora magic quality.
- A great effect for any kind of audience.
- Clear instructions are supplied on a DVD.
- Easy to perform and with a strong visual impact.
- The items are produced with care in a plastic material. The tubes are cm 15 tall (5,9") and measure cm 12,3 (4,84") on each side.
