

## Money Money by Juan Pablo

May you change this one dollar bill into a one hundred?... Sure we all have often heard this!

To change the value of the bills is an often request of the spectators. Perhaps that's why Patrick Page created, time ago, the first version of his trick "Papers changed into bills". Since then many other versions of the trick were created, but all of them require a gimmick, and not ALL the bills may be examined.

Now, Juan Pablo and Bazar de Magia created "Money Money". With his version you may transform five one dollar bills, that the spectator gives you, into five one hundred bills, which the spectator may examine!

No Gimmicks.

No double bills.

No magnets.

ALL the bills may be examined and, if you wish, you may give ALL THE BILLS to the spectator!

You may change pieces of paper into bills, or otherwise.

All kind of bills may be used, **provided all have the same size.**

You receive a one hour **DVD** (in English and Spanish) with all explanations, some variatiosns and tips, and all you need to perform this miracle and amaze your audience with "Money, Money".

- Bazar de Magia quality.
