

## Tenyo - Wildlife Wizard - Bühnentrick

The magician hands an animal picture book to a spectator, instructs him to open to any page, and wave the palm of his hand over each animal photograph. From a distance the magician attempts to read the spectator's thoughts, and ultimately divines all the chosen animals!

The book appears to be perfectly ordinary, not a magician's prop, so it will not raise any suspicion. Once you learn the secret, you will always be ready to entertain your audiences with this baffling book.
