

## 20th Century Brassiere 18 in.

The magician ties two hankys together and places them into the neckline of a female audience member.

After he makes a silk disappear, he pretends that it will reappear between the two tied hankys, but when he pulls the hankys apart a bra appears!

- The polyester hankys are 18".
- The trick comes complete with everything except the small silk that must disappear (use your favourite method for the vanish).
