

Magical Frame by Tora Magic

The performer displays a frame that encloses a black and white drawing of a magician. He gives a spectator 4 cards each with a spot of a different color. He then asks the spectator to choose a color from these. A moment later the magician's drawing will be colored and the dress and the top hat will be in the chosen color!

But it doesn't stop there!

In fact, it can be instantly repeated with another color or with all four colors! The spectator can freely choose one of the 4 colors, or 2/3 colors one after the other, and even all 4 colors in sequence and the drawing, every time, will change into the chosen color!

- Practical, portable and simple to use.
- Perfect for all audiences, loved by children!
