

Look Sharp Anniversary Edition

LOOK SHARP ANNIVERSARY EDITION COMES WITH 52 GIMMICKS!

Magician Richard Furzer has been performing Look Sharp to many years and during a conversation he had with Peter Nardi Richard mentioned how he would love the Look Sharp gimmick to have two major revelations like the classic Anniversary Waltz effect. This comment immediately got Peter thinking and together they created the gimmick and a super strong routine and handling. The great thing about the both Look Sharp versions is you can choose to do the routine with a signed card BUT it's equally as strong and super simple to perform with an unsigned card!

"Wayne Goodman has come up with an idea I can guarantee will be used by magicians world-wide. You would be mad not to carry this!" - Peter Nardi

Wayne's "Look Sharp" concept is simple but extremely ingenious. Imagine being able to turn a sharpie marker (something we all use) in to a chosen playing card, even in your spectators own hands.

Wayne's "Look Sharp 2.0" contains 2 revelations.

One is the full card revelation and the other a very sneaky revelation built into the design. Perfect for when you want a double whammy!

"Look Sharp 2.0" can be performed as a standalone piece or part of a longer routine.

"Look Sharp 2.0" even makes a perfect ending for a multiple card selection routine.

"Look Sharp 2.0" Can even be performed with a signed card!

"Look Sharp 2.0" is ideal for any performing situation.

Wayne Goodman's "Look Sharp 2.0" comes complete with fifty two custom printed "Look Sharp" cards (they make the perfect impossible giveaway item), a full instructional video covering complete routines, bonus tips and handlings.

"Look Sharp" is something you will really want in your arsenal.
