

Zig Zag Card - Jumbo

A chosen card is inserted into a frame. The magician, without any suspicious movements, VISIBLY moves the middle part of the card. Everyone will clearly see that the card is divided into three sections and the effect is really incredible. To finish, the magician pushes the middle part of the card in its original position, he slips it off from the frame and shows the card completely restored!

- No sleight of hand required.
- The frame is cm 22 x 1,2 x 18,4.
- Totally automatic. The frame does all for you.
