

KRAFT 2 - Black Edition by Axel Vergnaud

Cards appear or transform as if by magic, instantly and visually!

Show an empty envelope and the spectator's card immediately appears. You can also show a card of another value inside the envelope and it instantly transforms into the spectator's signed card.

Put a blank card inside and it visually transforms into the signed card.

Display or change the view predictions or display your own business card!

You've got to see it to believe it!

Ideal for close-ups and cocktail parties. Easy to perform but very high impact.
