

## Key Project

Do you like Every day Carry (EDC) magic? Then Key Project is made for you! This is an original kit of keys to do a card reveal. You will always have it on you.

You show two regular keys on a keyring, and you put it into the spectator's hand. Then you ask them to choose two cards: the seven of diamonds and the five of spades.

Then ask them to think about these two cards, when they open their hand, you can see that the two keys reveal the card values cut in the metal.

You can reveal one key or the two keys at the same time

.

This is a "project", so you have different way to reveal the cards values:

- Two visual reveals.
- Two types of changes to put it in the spectator's hand.
- A reveal with another prop to make it more impossible.

All the props and gimmicks are included:

- Every Day Carry (EDC).
- Two regular keys and two special keys.
- Other props included.
- For close-up and social media.
- Reset fast.
