

## Jumping Rhinestone

The magician shows a die which he then puts in the hand of a spectator. Then he shows a stick filled, on both sides, with small rhinestones. A moment later the rhinestones will vanish from the wand... and reappear in place of the dots on the die!

- A pocket effect that you will always carry with you!
- The effect can also be performed in reverse: the die full of rhinestones is shown. After a moment the wand, shown normal on both sides, will be filled with rhinestones which will magically disappear from the die!
- Please note that the item supplied may have a different color than the one shown in the photo or in the video.
