

## Insta Box

The magician shows an elegant empty Plexiglass box and, instantly, a playing card appears inside!

Or, the magician chooses a card which is returned to the deck. Then, he shows the empty box closed with rubber bands, for example. The deck is thrown towards the box and the chosen card will magically appear inside the box instantly!

The video says a thousand words. Seeing is believing... Hyper visual magic!

- The wonderful gimmick, the video instruction and the little box which measures 7 (2,75") x 10 (3,93") x 3 (1,18") cm without lid, are supplied. The deck of cards is not supplied.
