

## Wire Prediction

The magician shows a piece of wire and then asks a spectator to choose a card from a deck. He picks up a lighter and passes the flame under the wire. Incredibly the wire starts moving by itself until, right in front of the spectator's eyes... it gets into the shape of the chosen card!

A rare effect that is between magic and the kinetic power of the mind.

- Each package contains two pieces (7 of hearts and 8 of diamonds)
