

Icarus by Christian Grace

A mid-air restoration of a torn playing card - that ends totally clean.

Icarus is a trick only Christian Grace could create. An effortless display of insane visuals, but with a satisfying & practical method.

As the broken pieces are thrust towards the table, they unite in mid-air to end as a completely clean, inspectable solid.

It's fun - it's fast and the restoration happens in mid-air - or as it lands in the spectator's hands.
