

Huzzle Cast Coil - Difficulty Hard

Pablo Picasso once said: "Youth has no age." So no matter your adult age, Huzzle these puzzles as much as you can.

It appears like a box-like lump with a hole in it, but is actually comprised of 2 coiled up virtually identical pieces. You must try to take it apart by sliding and rotating the pieces. Although the pieces are angular in shape, they can be rotated in unexpected ways, making their movements quite intriguing. The theme of the puzzle is "Loops".
