

Hopping Queen

Here is a great and original version of the three card monte for stage that is very simple and visual!

The magician shows an elegant display, in which three jumbo cards are inserted: two kings and a queen.

He then asks the spectators to follow the queen but as hard as they try, they can never find it.

More than words, the video shows how powerful the effect is.

- The display, made in wood with extreme care, measures 35.7 (14,05") x 17.8 (7") x 1.9 (0,74") cm.
