

HEARTBEAT by Juan Colás

THEY SEE NOTHING... BUT THEY FEEL EVERYTHING!

Magic is very visual art. Everyone can usually see the magic happen.

But with HEARTBEAT, nobody can see it. They can only FEEL it.

You place a pencil at pure fingertips, creating a connection between you and the spectator. As soon as you touch your heart, they can feel your pulse through the pencil.

BOOM BOOM - BOOM BOOM

It's a feeling that can't be described, you have to experience it... It's deep.

There are no electronics, nothing palmed - and they can completely examine the pencil and your hands.

HEARTBEAT is not just magic. It's an experience that they will never forget.
