

Goods by Kim Sang Soon

"Hello, I'm magician Kim Sang Soon. Goods which I used at FISM is a gimmick that I made because I always want to carry. The reason that I made a new product is that because I wish everyone can perform anytime, anywhere with my gimmick which I have performed on the stage. A single tool with a wide range of functions enables like chop cup, vanishing, and appearing system. With the recent development of online streaming services, It would be very effective on various online platforms such as SNS or ZOOM. Also, it has an attractive casual design that is suitable to use everyday, so you can perform wherever you are without any restrictions on the location. It's easy and simple to perform and just 3 seconds is all you need to set.

If you want to be a star both daily magic and social media magic at the same time, please be with Goods.

I hope my work will be remembered for a long time with Goods."

Included : Normal Shoe (Left) + Gimmick Shoe (Right) + Gimmick Shoes Case + Streaming Lecture (QR code) + Foot Print Download Link (QR code).
