

Fun Cube by Tora Magic

The magician shows an envelope from which he takes out a large red die. He places it on a base, surrounds it with a frame and covers everything with a lid. He then makes magical gestures towards the envelope and lifts the lid, but the die is still where it was placed. He covers the die with the lid again. He concentrates more and an instant later, magically, by lifting the lid the dice will have disappeared... to be found later inside the envelope!

- Visual and easy to perform.
- Suitable for theater performances, parlor performances, children shows, etc.
