

## Electric Touch + by Yigal Mesika

"A very powerful way to spark a reaction!" - David Blaine

"Brilliant and electrifying" - Cyril

"Many of Yigal's products are incredible innovative, clever and a must for those who wants to create miracles anywhere at anytime!" - Criss Angel

Electric Touch + gives you the extraordinary ability to deliver an electrostatic shock that will not only surge through your fingertips, but through your entire body as well — and that's just for starters! Watch your audience gasp in astonishment as your charge everyday objects like keys, rings and spoons. They will actually see, hear, and feel the immense power at your command!

When the original Electric Touch was announced, magicians and mentalists worldwide had just one question: "Is this really possible?" When they discovered the groundbreaking technology, they were amazed by its brilliance, practicality and versatility. Now the international best seller is back and better than ever with new and improved technology. Here's your chance to bend the laws of nature and create jaw-dropping miracles.

No one can teach you better than the creator of Electric Touch + himself, Yigal Mesika. Here, on an all-new HD-quality DVD, is your exclusive opportunity to witness Yigal share his closely-guarded subtleties, expert tips and personal routines that will take your magic to the next level and beyond. Electric Touch + will create an immediate sense of excitement and mystery and showcase your supernatural powers in one unforgettable mind-bending audience experience.

What are the differences between the old Electric Touch and the Electric Touch +?

- Improved technology has made the Electric Touch + completely silent.
- Electric Touch + is much more durable and will last much longer than its.
- The new model is much easier to operate and more reliable.
- Electric Touch + comes with an HD-quality DVD with different routines, tips, effects and everything you need to know to use it to its full potential.
- The new model is 20% more powerful, and is still adjustable.

Overall you get twice the quality for the same low price as the original!

### IMAGINE

- Sending spectators electrostatic “messages” with a mere touch of your finger.
- Using your power to illuminate fluorescent bulbs.
- Animating a pile of dry tea leaves, tobacco, confetti, salt or pepper.
- Bending streams of water with a simple flick of your wrist.
- Charging any conductive metal object.
- Creating a spark of energy between any two audience members.
- The possibilities are endless!
