

Dancing hanky by Vincenzo Di Fatta

The magician clearly shows a hanky, he folds it and puts it on the table. He then captures a ghost from mid air, and puts it in between the hanky's folds. Suddenly it starts to rise and fall in a most spooky manner and without the magician touching it!

- The hanky is 15,4 in. square (39cm). •
- The color and pattern of the hanky can be different from the one shown in the photo and the video.
