

Ufo Dice

One red die and three white dice are shown. The red die is placed into a "UFO" shaped container. Next one of the white dice is placed into the performer's coat pocket, and... WOW! ... It magically transfers to the container. In the same way, the remaining white dice also invisibly "jump", one at time, to the container.

- All props can be examined.
- The item is made in plastic and has a diameter of cm 8 (3,14"). The dice measure cm 1,5 (0,59") on each side.
