

Cups and Balls - Wood

Three balls inexplicably pass through the bottom of the cups, then disappear and reappear under the cups, finally transforming themselves. As you already know, there are many variations and achievable effects.

A classic in a very elegant guise: in wood!

- They are made with great care and with crochet balls.
- Dimensions of the cup: diameter 7 cm (2,75") while the height is 8 cm (3,15").
