

Clown who Lost his Head

A large cut out figure of a clown holding a inflated balloon in his hand is displayed. The head of the clown is removed and placed under a handkerchief. The balloon is taken and placed in place of the head. Suddenly the balloon bursts and magically the missing head reappears.

- A classic effect always loved by children!
- The wooden clown is 41.5 cm high (16,33") and 21.5 cm (8,46") wide and is fixed on a base 24.5 (9,64") x 20.5 (8,07") cm wide. The handkerchief measures 44 cm (17,32") on each side (the fabric pattern may differ from the one showed in the video or in the photo). Balloons are not provided.
