

Sitta Change Bag

The change bag is a tool that allows many routines and is optimal for shows with any type of audience. This very useful bag, in fact, is ideal for the exchange, production and disappearance of various objects such as silks, ropes, ribbons, watches, cards, balls, etc. (not supplied). With this change bag you could transform colored silks into a blendo, restore a ripped newspaper or a cut rope, make color changes, etc. In our opinion, however, as it is an extremely professional and elegant bag, its use finds its best place with mentalism.

For example, show the bag containing several pieces of paper, each with the name of a different famous person written on it. Show some of them. Then, a spectator freely takes one of those pieces of paper and the name on it corresponds to the one previously written in a prediction.

The same presentation could be done using the names of famous cities of the world.

Still in mentalism, it is ideal for exchanging/forcing pieces of paper, envelopes, cards, coins, photographs, etc.!

- It is an original Sitta product and the quality is excellent.
- Made of red velvet, without handle, it has a truly elegant and professional look.
- The bag can be used with coins, billets, buttons, marbles, playing cards, photos, etc.
- Having 3 compartments inside, you can also use it for multiple choices with different objects. The only limit will be your imagination!
