Card Box by Axel Vergnaud

Axel Vergnaud's imagination has struck again with DeckBox.

Imagine you' show cards with Coke, chips, candy etc. written on them... The spectator chooses the candy card. Then incredibly the whole deck changes into a box, and inside the box CANDIES!

Imagine, you ask a spectator to choose a card, let's imagine the 5 diamonds, you put it back in the deck, then you show that all the cards dissappear, and change into a box. Inside this box... the spectator's chosen card!

The possibilities are endless. You can put any small object inside: cards, sweets, ticket, prediction and lots more.

- easy to perform
- instant reset
- super visual
- use Bicycle cards or your favourite deck design
- A blank Bicycle is included
