

Card Artistry (Mona Lisa) by Justin Flom & Vanishing Inc - DVD

Justin Flom's "Card Artistry" is an unexpected revelation of a selected card in which the magician turns the deck into a famous painting (or if you prefer, a brain-scan image).

It's the rarest kind of magic effect: it captures the imaginations of both magicians and audiences. Evoking a comparison of magician as artist, the performer "paints" his deck of cards into a four-by-four card mosaic of the Mona-Lisa. The spectator's selection appears in the painting! Inspired by a great Chris Kenner effect, "Card Artistry" is full of touches by professional performer Justin Flom.
