

## Candy Ghost by Andrew & André Previato

Here is Candy GHOST, the latest creation from Andrew and André Previato, 2 very creative Brazilian magicians. A visual revelation that will adapt to all your needs: close-up, mentalism, street magic and even social networks!

The magician has the spectator choose a card, then presents a box of world famous candies: Tic Tac®. He takes one in his mouth then blows into the box, the condensation formed by his breath reveals the chosen card! It's ultra visual, stunning and very easy to do. The reset is quick and the box can be used to hold candy like a normal box.

Strong points:

- Very visual.
- Easy to do.
- Perfect for street magic.
- Adaptable to any box of Tic Tac (of the same size).
- Instant reset.
- Daily object.
