

Psychokinetic Bolt

The performer shows a bolt and nut and asks a spectator to screw them together. Then he takes the bolt and holds it at the tips of his fingers. He concentrates, makes a magical gesture, and the nut begins to unscrew from the bolt until it falls on the table.

Incredible psychokinesis effect!

- An effect that will leave every audience amazed.
- Pocket-sized, you will always love to carry it with you. We are sure of it.
- The bolt, made of brass, is 5 cm long. Everything can be examined.
