

## **Bicycle Nocturnal - Special Limited Print Run**

The Nocturnal Deck is a crisp feature deck that will stand out in any type of collection. The dark, yet vivid, colors stand out amidst a flurry of radical spikes and cracks. A contrast of dark blues and dark reds are combined against a black and silver card. The colors grow from dark to light creating a stunning fan. The backs of the cards feature floating spheres that pop off the card. Grey spikes and cracks surround the background and a red wave spirals into the center of the blue abyss. The face cards are saturated in a blue and red glow. The numbered cards illuminate from the center. The pips are custom with black borders and colored centers. The Joker cards are a silhouette of the jester himself against a jet-black background.

- Printed by USPCC. Custom seal. Air-Cushion Finish.
- The cards are poker size and of the usual Bicycle quality.
