

SvenKards (Lined) by Brett Barry

INTRODUCING SVENKARDSÂ® THE NEXT EVOLUTION OF FORCING HAS ARRIVED. THE SVENPADÂ® WITHOUT THE PAD.

Something so ordinary that no one will suspect the stealthy secret. Our new SVENKARDSÂ® were a sellout, and the talk of Magic Live 2024!

Many who have seen and handled these used the word "GAME CHANGER."

A powerfully deceptive way to force a word or drawing with unbelievable freedom.

Let your spectator handle the cards and call out what is written. Let your spectator mix them without worry. Let your spectator force themselves with a small amount of management - in THEIR hands.

They will suspect nothing.

The SvenKardsÂ® represent the biggest advancement in the SVENPADÂ® lineup since 2016. A stack of innocent looking index cards containing a hidden secret, which you can use to force ANYTHING.

These may look & feel like ordinary Oxford cards, but these are purpose built with only ONE goal in mind: the most hands-off perfect force possible!

They come unwritten, so you can use them as you wish for any routine - in any language.

Available in both LINED (3" x 5") or UNLINED (4" x 6").

Note these cool performance advantages that will raise your performances to new heights:

- 1. Index cards look and feel 100% normal - custom made in the USA**
- 2. We manufacture every element - from the ground up.**
- 3. Each pair of index cards looks and 100% feels like a single index card**

4. The index cards can be HANDED to your spectator to be read aloud! With nearly ZERO worries about them discovering the secret or anything amiss
5. The cards can be casually MIXED face up or down, in the hands of your spectator!
6. Spread the cards out on a table to be picked up or mixed
7. Gather the cards and make them flush.
Clip them or hold the cards by one end. The spectator proceeds to force themselves in THEIR own hands.
8. Each set includes 20 PAIRS (40 total index cards) and a colored metal clip.

We promise that our SVENKARDSÂ® will blow your mind in terms of the ease of use, deceptiveness, and the precision quality that will even fool you when you open the package. Hold one card in your hand and feel the power!

"Dude. Love the SVENKARDS! Really- you are gonna sell so many! Already feeling with ideas. Thank you!"

- Dan White

"The SvenKards are terrific, utterly deceptive and so well made!"

- Andy Nyman

"Brett I did not realize how much I needed these until I actually got them at Magic Live! I have a very casual approach to mentalism, and I avoid anything that looks or feels like a prop. These feel so natural - I love them! My biggest challenge will be how to not over-use them."

- Vinny Grosso

"WOW!!! I've had the pleasure of working with these cards and they are perfect. Organic. Natural. Effortless. Customizable. I'm already creating multiple routines for these. They are perfect. And they feel and handle great!"

- Jonathan Levit

"I just received the SVENKARDS in Germany - and wow, there are incredibly well done, exceeding by far my expectations!! I got several ideas in my mind using them - and will share my thoughts with you soon. "

- Jan Forster

"An AWESOME new addition to the range, and now opens up some very exciting routing possibilities!"

- Michael Murray

"It's a giant leap forward in the world of forcing. It's outstanding."

- Greg Gleason

"As you might expect, SvenKards have (once again) set a new standard for a magic and mentalism prop. My only question is, what took you so long to make these?"

- Eric Samuels

"The King of Sven Brett Barry does it again. He continues to innovate and hits an absolute home run with SvenKards!! All the versatility of Svenpads we all know and love, but now with hands off handling that allows spectators to not only hold the cards themselves but also write on them!!! A+++"

- Oz Pearlman

"The SvenKards! Oh man, what a great idea to have these produced professionally and readily available. They handle really great even by the audience and are ready to force anything you want. They feel so different than the pads, and again they look 100% innocent and something you might pick up from your local stationery."

- Ivan Mallia

"SVENKARDS rock! Amazing addition to the arsenal to help create miracles! Easily one of the top three purchases at magic live! Brett Barry booth was on FIRE. I just wish I would have listened to his advice and bought two packages."

- Isaiah Foster

"Without question, they've certainly lived up to everything that I expect. Not only that, but I'm fairly certain that you will be seeing these being used more and more. They will eventually be as ubiquitous as SvenPads."

- Jheff Poncher

"I played with these in the booth and even holding them in my hands (and

knowing the secret), I was astonished."

- Christopher Weed

"The SVENKARDS are incredibly good! Each card feels and looks like one card. Damn. Their precision cuts make them the best. Show each card individually first then stack them together. They will hold up with heavy use for a long time! Very excited to incorporate them."

- Justin Lewis

"Got my SvenKards and couldn't be more pleased. Whoda thought a force prop could be examinable? Brett Barry's design and especially his simple technique for having the spectator handle and look through the cards is so "innocent" that no one will ever suspect anything. I'm so looking forward to adding this to my working repertoire!"

- Rod Robison

"Brett's new Svenkards are amazing. Love the idea of them being able to be mixed by the audience. Highly recommend picking them up."

- Adrian Saint

"The SvenKards are so organic and ridiculously foolproof. They fit my performances perfectly and I am already using them."

- Craig Fillicetti

"SvenKards are the greatest magic forcing device since sliced bread. I mean it!"

- Kabir Khan

"Bravo to Brett Barry. His SVENKARDS use what seem like ordinary index cards in an extraordinary way. They are deviously deceptive!"

- Bernie Shine
