

CTC Stage Cards by Luca Volpe, Alan Wong and Paul McCaig

Following the success of the DTC CARDS, Luca Volpe, Paul McCaig, and Alan Wong are proud to present the **CTC STAGE!**

Reveal stunning drawings and colors with these beautiful, durable plastic cards featuring vivid UV printing.

The **CTC STAGE** cards unlock a world of possibilities for your mentalism routines. The only limit is your imagination!

Included in the download is a fantastic three-phase routine that's a joy to perform. In the first phase, you'll be able to "see with your fingertips," discerning the chosen drawing without ever looking at it.

In the second phase, you'll demonstrate mind-reading abilities by perfectly duplicating the drawing your spectator freely chooses.

Finally, in the third phase, you'll sense the color of the card even though it's hidden inside an RFID envelope, adding another layer of impossibility!

It packs flat and plays big, making it perfect for any venue.

This is the easiest stack to date! Learn the sequence of colors and drawings in seconds.

The **CTC STAGE** cards are perfect for parlor shows, close-up magic, and even stage performances!

The Professional Sets Include:

- Ten UV-printed plastic parlor-sized cards.
- A specially crafted brown envelope.
- Three black RFID envelopes for the final phase. These envelopes are also secretly marked, adding another layer of deception to your routine.
- A video download with detailed explanations and a full performance.
