

Dead Rebel Magic Explorers Club Cryptozoological Playing Card Set

Dead Rebel Magic

presents a mesmerizing collection of two intricately crafted playing card decks, each inspired by legendary Victorian expeditions to far-flung, mysterious continents. Drawing from the wonders of a rare 19th-century natural history book, Marvels of nature on Earth, sea, and sky, these decks blend history with the fantastical.

Designed to resemble ancient, weathered volumes, the decks chronicle the breathtaking discoveries of flora, fauna, and cryptozoological creatures encountered on these daring voyages. Each of the 54 cards showcases painstakingly recreated artwork, bringing to life the mythical beasts and magical landscapes uncovered during these otherworldly expeditions.

Breathe new life into your card effects with this exclusive set of both gorgeous decks of cards, housed in a Dead Rebel leather wrap-around case.
