

Scary Book by Gustavo Sereno and Gee Magic - Buch

Welcome to the first book of the book series by Gee Magic.

Scary Book uses a well-known principle that is used in an original and unique way making a very funny and interacting routine for entertaining kids.

You start by saying that you are going to show the scariest book of all time. And the reason to be so scary is that inside lives the scariest creatures and monsters.

When you show the book (phase 1) it will appear adorable little animals that are so cute that kids will laugh because they are not scary at all. Then you react like something went wrong and you manage to understand what you need to do to make them appear. It's the magic word. The magic word is shout it out (phase 2) and when you open the book again there are no monsters, no animals nothing. (phase 3) At the end with one helper or the help of everyone you will make them appear.

Please Note: The book you are going to receive is slightly different from the promotional video. The one you are going to receive have bigger animals and creatures/monsters. And have a white border around the pages. Besides that, everything is the same.
