

CC Orbit 3rd Edition - Pokerdeck

Cardistry-Con V3 Orbits

have arrived! We made this deck to celebrate the 9th Cardistry-Con. Since this one was in Tokyo, Japan we decided to go Japanese minimal with the artwork. It's our most minimal design to date and features the Japanese flag with our signature Orbit O in the center of it. You'll find deep blue accents in the court cards that represent calmness, stability, and sea/sky surrounding Japan.

The deck features a double backer, extra 8 of spades, and is traditionally cut. There is something beautiful about the simplicity of the back design. The lack of ink gives a more organic feel to the cards since there's more paper than ink.

Quantity: 3,000 Deck specs: Traditionally cut premium thin crushed stock aircushion finish linen finish tuck box US Playing Card Company.
