

## Blink Change

The back of a card contained in an envelope is shown, and is left in sight. A card is chosen, lost in the deck from where a few instants later it will be shown to have vanished. Then, the envelope is shown again and in an instant it changes visibly into the spectator's card!

- Simple and impactful!
- The gimmick is made with original Bicycle cards. The deck is not included.

NOTE - The prediction card may differ from the one shown in the video or photo (and cannot be chosen).
