

Bicycle - Haunted Deck

Have a spectator choose three cards, put them back in the deck and place them on the palm of your hand. Concentrate, and after a minute you will find the three cards in an unusual way. Indeed, a mysterious force will move the deck in three different directions and three cards will come out of it. Of course they will be the three chosen cards!

- The poker size cards are original Bicycle cards.

Note: The video only shows the effect possible with the "Haunted deck". The item you will receive is shown in the photo.
