

The Bending Spoon (Bicycle Cards)

Here is a great classic, now printed for the first time on Bicycle Rider Back cards.

The magician shows a stack of cards to the audience. On each card there is a picture of a spoon.

The spectator signs one of the cards. The signed card is placed face down on the spectator's hand.

Now the Magician waves his hand over the card, and gently presses on its back. When the spectator turns the card over he will see that the picture of the spoon on his signed card is completely and utterly BENT!

Mind over matter in a fun surprising way!

- Printed by the USPCC on Bicycle Rider Back cards
- Very easy to perform
- Comes with easy to follow instructions

Note: the trick can be performed an unlimited amount of times if the card is not signed or if the signature is placed on removable sticky label. If for special occasions you would like to get the card signed and give it as a gift to your spectator, the effect can be performed for a limited amount of times.
