

Easy Tones by Rich Relish & Craig Petty

A picture paints a thousand *possibilities*.

Mentalism that has their imagination on speed dial and it's never called so quickly!

EasyTones takes a regular color swatch from a paint store and supercharges it with crazy, *brand new* secrets and principles!

EasyTones allows your audience to freely think of ANY color from the deck, the choice is *freakishly* fair, and immediately you can reveal not only that you know what it is but that you also predicted it too... and we're barely even getting started!

Colors are a skeleton key that instantly unlocks our memories and imaginations. With **EasyTones** you have the power to know, under *impossible* conditions, what colors people are thinking of and from there you can tap into their deepest thoughts.

EasyTones was created by Rich Relish, one of mentalism's fastest rising stars. He's making a name for himself due to his absurdly clever secrets that he combines with *wildly* creative methods.

But we're not stopping there. We're bringing in the big guns. When Craig Petty first saw **EasyTones** and learned of the incredible new secrets Rich had created for this deck, he practically begged us to let him onto this project. So we did!

With over 2 hours made up of 10 brand new routines to add into the **EasyTones** project, Craig Petty quite literally rocks the house with his jaw dropping, hard hitting tricks.

Here's some of the standout effects that you can perform with **EasyTones**:

Mindreading v Prediction

Two participants choose a card and think of a color. One is revealed as mind reading, the other as a prediction that has been on display from the very beginning. Rich's go-to gig routine. Extremely direct and pure worker.

Color confabulation

An effect for three people that has several moments of magic and a personalized ending that they never see coming!

Colorful Gemini

The time-tested Gemini Twins is taken to new and unique heights using the ground breaking properties of the **EasyTones** deck. A reboot of a classic that actually hits harder than ever before!

EasyTones is printed on beautiful, vibrant, high quality card stock. Each **EasyTones** deck consists of:

- 40 **EasyTones** swatches and 55 cards total.
- Force the name of the color scheme
- Force a color on the card
- Reveal a thought of color on the card
- Force a number
- The unique build of the deck allows you to create routines where methods cancel each other out
- Includes a crib built into the tuck case.
- Includes a crib card to be included in the deck, hidden in plain sight

Others have explored color magic before, but there has NEVER been so many methods, principles, and effects JAM-PACKED into one powerhouse deck!

EasyTones: Where every color reveals a secret, and every secret paints a masterpiece!
