The Trident was a legendary weapon wielded by the Greek god, Poseidon, and now you can have the same power.

A coin miracle merges the traditional and the modern.

Magicians can magically manipulate a gold, silver and copper coin at will. This coin set allows you to achieve productions, vanishes, transpositions, color changes and much more.

Multiple effective routines are included and taught in the tutorial in a detailed way.

There are endless possibilities with Trident. The limit is only your imagination.

Come and wield the power of Trident today.
